The Chip Shots Program is a fun program designed to give golf instruction and on course experience to those who are interested in starting their kids in the game of golf! Chip Shots is intended to provide kids with a basic understanding of golf fundamentals in a safe and enjoyable environment with other kids.

Our professional golf staff provides 30-45 minutes of instruction in a group setting while parents administer guided help to their child. After which, parents may take their juniors to a specially designated area of the golf course reserved for the Chip Shots. Juniors may play on the golf course for up to an hour under the supervision of their parent or guardian. Please note that a guardian must be at least 18 years old.

The instruction philosophy of teaching golf to juniors in this age range emphasizes having fun and teaching the parents what to encourage their child to do and reinforce. Information retention as well as attention span is lower at this age and the parent is the key to providing consistent reminders and guidance over specific skills, body positions, and manners of play.
